

Cascade Ultra-Lite Premium Trim

A Guide to Painting, Staining, and Storing Cascade Ultra-Lite Premium Trim

The Benefits OF Cascade Ultra-Lite Premium Trim:

- Decay and rot resistant
- Strong longevity
- Easy to paint and stain
- Pre-printed
- Straight 16' and 20' with less seams
- Extensive usability
- No tannin bleed
- Clear grain: No knots
- Stable wood
- No splitting, cupping, or warping
 - Works well with any cladding system
- Superior attributes over Cedar & Redwood

STORAGE AND CARE:

- Upon receiving the product to your yard, remove wrap or place under covered space where extreme weather elements will not interfere with the product.
- Like all wood, this product needs to be under shelter and remain dry to prevent mold.
- Do not leave wood product exposed to extreme weather conditions.

RECOMMENDED PAINTING & STAINING PROCESS

- For exterior use applications, apply primer to cut ends before painting.
- Reversible, both sides are applicable.
- When using a spray application, more than two coats might need to be applied to due to the consistency of the paint and back rolled.
- Cascade Ultra-Lite Premium Trim shortly after installation to ensure quality of the wood product.
- Use an acrylic latex or oil based paint. Follow directions from paint supplier regarding painting on wood.
- After painting any wood, allow 30 days to cure. To cure properly, avoid painting in humidity or windy conditions and allow cutting time while temperatures are over 45 degrees.

ROUGH SIDE APPLICATION

- Like any pre-primed wood, 3 of the 6 sides are more saturated in primer than the others. We recommend having another coat of primer on the rough side done by the factory or at site immediately.
- Priming this product before putting a top coat is recommended. Top coats should be a minimum of 2.5 mills dry or 6 mills wet.

SMOOTH SIDE APPLICATION

- Before painting or staining, dust off the wood with a damp cloth or use a mild water-based emulsion or alkaline solvent.
- Use a light sand paper of 240 grid or less roughen up surface to allow paint or stain to adhere better.
- Apply at least two coats of paint. A paint with a minimum of 2.5 mills dry should be used in the application process.

PRECAUTIONS

- If any wood product is left in a wrap, in the shade, out in extreme weather conditions, or just remain wet, mold might occur. Protect yourself and follow guidelines.
- If mold is present which is rare, use a solution of bleach and water with a fine brush and gently scrub area. Let dry and repeat primer stage of the process.

Cascade Ultra-Lite Premium Trim

the only CLEAR solution for trim, bevel and beaded ceiling.

Grown on plantations in China, Cascade Ultra-Lite Trim is lightweight, easy to handle and naturally rot, decay and insect resistant. And best of all, it's already primed and ready to paint.

WHAT IS Cascade Ultra-Lite Premium Trim?

Available exclusively from HEZE XINGLIN WOOD INDUSTRY CO., LTD, Cascade Ultra-Lite Premium Trim is made from Paulownia, a native fast-growing soft hardwood of Asia. It is mostly grown on plantations in China or in the Southeastern U.S. Light in color and similar the White Ash, the wood has no odor or taste, is mostly knot free and if planed or sanded feels like spun silk. Cascade Ultra-Lite Premium Trim has no measurable pitch, resins or tannins so it is not subject to extractive bleeding. It's average cubic foot weight varies between 15-19, which falls between Balsa and Poplar, and has been tested to have a higher strength-to-weight ratio than Balsa wood.

PREMIUM PRODUCT

Cascade Ultra-Lite Premium Trim wood products have many benefits including naturally rot, decay and insect resistant. It has one of the lowest thermal conductivity values of any wood; therefore, Cascade Ultra-Lite Premium Trim has high insulation property which contributes to low shrinkage in use and resistance to fire. The wood dries rapidly and does not easily warp, cup, end check, splinter or split. Cascade Ultra-Lite Premium Trim is easy to handle, plane, sand, saw, rip, route, and carve. In quick processing there is no danger or splitting or chipping. It can be glued, painted or stained like any other wood. No pilot are required prior to drilling. Typical uses are trim, siding, furniture, musical instruments, crafts and various decorative uses. Do to its strength-to-weight ratio, it is preferred in construction of aircraft, buses, marine, RVs, trucks and trains.

OUR COMPANY

Our mission is so simple. Quality products and quality service to our customers. In fact, we are so proud of our products and our service, we stand behind them 100% and strive to grow our own business through building our customers.

Cascade Ultra-Lite Premium Trim

SPECIFICATIONS:

- Trim
 - 1x4 thru 1x12
 - 5/4x 4 thru 5/4x12
